What are Cloverbuds?

The Green County 4-H Cloverbud Program is a “pre-4-H” experience for kids in kindergarten, first and second grades. The purpose of the Cloverbud Program is the development of youth to become competent, caring and contributing citizens through the development of life skills.

Cloverbuds create projects like traditional 4-Hers and they answer questions about their projects at the fair. Competition at the Cloverbud level is non-existent. The most important focus is just experiencing what 4-H is like.

Cloverbuds:
◊ Learn by doing in a variety of hands-on experiences
◊ Become able to experience early success
◊ Learn to make their own decisions
◊ Are recognized for their efforts.

Parents & Volunteers can help by:
◊ Sharing their talents and skills with the youth
◊ Being positive role models to the youth
◊ Assisting with meetings and program planning

An EEO/Affirmative Action employer, the UW-Extension provides equal opportunities in employment and programming, including Title IX and ADA requirements.

Teaching Green County’s Youth to “Make the Best Better” through “Learning by Doing”
Cloverbuds are very busy with fun filled activities that explore future projects they can take as a regular 4-H member.

**Cloverbud Activities**
- Cabin Fever Day - Children build their own ‘cabins’ based on a chosen theme and get to know other Cloverbuds.
- Foods Fair - Gives Cloverbuds a chance to prepare food and have it judged face-to-face just like the Food Revue.
- Face-to-Face Judging at the Fair - Cloverbuds have a chance to make projects that interest them and exhibit them at the fair where they talk about their projects with a judge.
- Cloverbud Workshops - Cloverbuds meet during the year to explore project areas and work on their projects for the fair.

**The 4-H Pledge...**
I pledge...

- my head to clearer thinking,
- my heart to greater loyalty,
- my hands to larger service, and
- my health to better living for
  - my cub, my community,
  - my country, and my world.
