It is with great pleasure that we introduce the first *Green County Family Resource Guide*.

This guide aims to provide information to families in need of services. It is a window into the resources that may be available to them. The Resource Guide will also be used to assist advocates of children and families with a quick link to services available.

The *Green County Family Resource Guide* was made possible by the:

- ◆ Green County Early Head Start Community Advisory Committee
- ◆ WI Family Foundations Home Visiting Grant
- ◆ Dane County Parent Council
- ◆ Green County Health Department

It is the goal of the Early Head Start Community Advisory Committee to assemble and strengthen an early childhood network for the families of Green County.

We hope the *Green County Family Resource Guide* becomes a useful tool for the entire community. The guide is also available at the Green County Health Department's website:

[www.greencountyhealth.org](http://www.greencountyhealth.org). Extra print copies of this guide are available through the Green County Health Department.

This guide may not include all the programs and services that are available to Green County residents and is not a recommendation for any provider.
